

OVERVIEW

PM-Partners group AIPM Assessment Program is designed to provide project practitioners with the opportunity to prove their capability through their project work and to have their existing competencies recognised by attaining AIPM Certification.

THIS PROGRAM IS DESIGNED FOR

Participants who would have gained appropriate levels of project management competence through previous studies, work and life experience.

OVERVIEW

The program consists of an assessment process that enables participants to demonstrate competency in a logical, orderly and user friendly manner.

Each certification level is competency-based and consequently the PM-Partners group program focuses upon assessing and recognising competencies acquired over time via a formal workplace assessment process.

The competency standards against which the award is granted are based on extensive research into national and international best practice in project management at the levels of work found in most private and public sector workplaces. This research showed that these levels equate to levels 4, 5 and 6 of the Australian Standards Framework (ASF) which, when aligned to the Australian Qualifications Framework (AQF), are at Certificate IV, Diploma, and Advanced Diploma levels respectively as detailed in the following:

RegPM Level	Award	ASF	AQF	Someone who...
Certified Practicing Project Practitioner	CPPP	Level 4	Cert. IV	Supports, assists or contributes to a project.
Certified Practicing Project Manager	CPPM	Level 5	Diploma	Plans and manages a project.
Certified Practicing Project Director	CPPD	Level 6	Adv. Diploma	Directs or manages projects /programs/portfolios.
