

2012 Public Training Schedule

In a fast-paced and volatile economy business results are driven by efficient project execution. However with project failure rates at a 10 year high, a significant gap has become evident between the skills of Project Managers and project requirements.

Organisations gain competitive advantage when they are able to develop their Project Managers to have the appropriate skills and knowledge and match those capabilities with the needs of the organisation.

Australia's Project Management Specialist

PM-Partners group is Australia's most highly certified project management specialist. We are the trusted service provider to Australia's most successful established and emerging PMOs.

We will help you drive visibility and priority into your portfolio, execute projects and develop power capabilities to support the success of your organisation.

We are Australia's most highly certified project management specialist. Our talented team of experienced consultants, Project Managers and facilitators work with organisations throughout Australia, Asia, Europe and the USA managing over 300 client engagements each year.

Professional Development Pathways

Based on customer feedback, PM-Partners group has constructed our education and training structure with courses neatly grouped into Professional Development Pathways.

Our Project Management education programs provide certification and development across a range of globally recognised streams.

Demand for Business Analysis capabilities within organisations is growing exponentially and PM-Partners group is one of the first organisation to offer a learning pathway that delivers both core and supporting skill development.

If you have any questions or would like a consultant to establish a specific pathway for your organisation, please phone us on **1300 701 314** or email info@pm-partners.com.au
