

Find out why organisations trust us to manage over **\$1.7 BN** of projects each year.

Transport and Logistics Case Study

PM-Partners group Advisory Services

Challenge: Increasing scale of projects in portfolio with lack of consistent standards and approach resulting in suboptimal project outcomes.

Solution: Provide assistance and best practice advice in the development of a group project framework encompassing portfolio management, project management and governance framework.

Benefit:

- » Improve overall project management related maturity across the organisation
- » Ensure consistent standards and processes across the organisation in relation to project delivery
- » More effective project delivery, quality assurance and minimised challenges
- » Assist in lead indicators to support pro-active management of portfolio
- » Best practice project management uplift programme
