Overview

AgilePM provides the ability to deliver Agile projects in organisations requiring standards, rigour and visibility around Project Management, whilst at the same time enabling the fast pace of change and empowerment that is integral to Agile.

AgilePM addresses the needs of management, project managers, team leaders, business analysts and the PMO working in an Agile environment, based on the DSDM® (Dynamic System Development Method) Agile Project Framework.

The Foundation course lays a solid foundation for managing projects using the DSDM Agile Project Framework and prepares candidates for the AgilePM Foundation certification.

The Practitioner course builds on the AgilePM Foundation course, providing additional depth of understanding, and prepares candidates for the AgilePM Practitioner certification exam.

Objectives

Foundation

This course will enable participants to:

- Adopt an Agile approach and philosophy
- Work in line with DSDM philosophy and principles
- Work effectively with DSDM roles, process and products
- Describe how DSDM Agile projects are managed
- Prepare for and sit the Foundation examination

Practitioner

The Practitioner course prepares participants to undertake and pass the AgilePM Practitioner Examination. The course follows Section 2 of the AgilePM Handbook V2 – “Digging Deeper”, and includes a review, consolidation of concepts and exam questions for the Practitioner level certification.

Please note that the Practitioner course is an [examination preparation course](#) and focuses on the application of AgilePM to prepare candidates for the Practitioner examination.

AgilePM® Foundation to Practitioner

Who should attend?

- Practising project managers
- Agile team members looking to become Agile Project Managers
- Individuals pursuing AgilePM Certification

Prerequisites

Foundation

Participants must have...

- A minimum of one year's Project Management experience OR
- Attended a PM-Partners Project Management Fundamentals course (or equivalent).

Practitioner

To be eligible to sit the Practitioner examination, participants must have **obtained a pass in the AgilePM Foundation exam** (25 / 50).

Pre-course work

Participants joining an AgilePM Practitioner course will be issued with pre-course work to ensure adequate preparation for the Practitioner exam.

Please be aware that pre-course work **must be completed** prior to the course.

Failure to complete pre-course work may mean that you are not ready to fully participate in the course and may limit your ability to gain the outcomes you are hoping to achieve.

Expected pre-course Practitioner preparation time: **minimum 4 hours**.

Key topics

The courses explore the following content with the Foundation level focusing on the theory, whilst Practitioner considers the application of the method:

Agile approach and philosophy

The Agile mindset. Being Agile vs Doing Agile. Delivering solutions using an Agile approach. Which Agile approach should you use.

The DSDM Agile Project Framework

The DSDM approach, principles and processes, and how they are applied throughout the project. Application and tailoring of relevant AgilePM aspects in context to enhance project success.

Working with DSDM Roles and products

Roles and responsibilities. Working effectively as an Agile team. Collaborating and communicating for success. The project manager's role across the DSDM lifecycle.

Managing Agile projects using DSDM

DSDM planning concepts including outcome-based planning and iterative development. Defining requirements through user stories, prioritisation and estimation. Tracking and control concepts and techniques e.g. management by exception, timeboxing and stand-ups. Managing quality and risk.

Course Delivery

Trainers of this course will use a practical delivery approach to provide participants with a 'hands-on', multi-faceted and challenging learning experience. Understanding and recall techniques will be used to provide participants with a solid understanding of AgilePM.

Courses are facilitated by our expert team and can be conducted onsite or at our premises. All courses can be customised to suit your requirements.

Note: Weekend courses are conducted over one full weekend and one following Saturday.

Materials: A comprehensive participant workbook is provided for the Foundation course.

A participant workbook and the AgilePM Handbook (published by the Agile Business Consortium) are provided to Practitioner participants.
