

Business Agility

AGILE

is a collection of processes or more specifically is a **set of principles** summarised by the Agile Manifesto.

AGILITY

is the ability of an organisation to **rapidly adapt** to market and environmental changes in productive and cost-effective ways.

SOME *Key* CONSIDERATIONS

Have a strategy for Agile

Ensure a common understanding across your organisation

Treat it as a change management journey

Engage widely and often

Invest time

Don't think it's easy

Adapt knowledge and best practice to your environment

Do NOT allow just IT to do it

Nurture a continuous improvement culture

According to Standish

Agile projects are on average **3x** as likely to be **successful** than projects using traditional management techniques.

SOME *Benefits*

Speed to Market

Flexibility

Time Boxed – Fixed Cost

Customer / Quality Focus Business

Value Focus

Embrace Change

Manages Risk Inherently

Improve Engagement and Collaboration

Right Product / Outcome

AGILE COACHING

ARE YOU GETTING *the results you need?*

It's not exactly a business secret that poorly-executed projects cost a great deal more than money (as if that's not bad enough). They can cost reputations. Careers. So why not face facts and get the help you need? PM-Partners is Australia's most highly-accredited project management specialist. So, to partner with PM-Partners is to put your project in safe hands. The safest. Which is probably why Australia's leading brands trust PM-Partners to run over \$1.7 billion of projects. Each and every year. Maybe you should too.
