Overview

One of the challenges facing organisations today is how to modify the business through regular change initiatives, with minimum disruption and maximum gain. Research suggests that 70% of projects fail to secure their anticipated benefits because organisations install new systems, processes or practices, but fail to implement the change fully - people are not sufficiently equipped for or committed to, the new ways of working to sustain them. This demonstrates an obvious need for professionals to supplement traditional project and business management skills with skills in change leadership.

Objectives

Foundation

The Foundation course includes the review, consolidation of concepts and exam questions to prepare participants for the Foundation level certification. Other key objectives are to:

- Understand how individuals are impacted by change and be able to develop strategies to help people through change
- Develop insights into how organisations work, organisational culture and the models and processes of change
- Understand the drivers of change, the change governance structures typically used in organisations and how to define a change vision
- Appreciate how to prepare people for change and support their learning and motivation to change
- Learn about the stakeholder engagement process and how to develop suitable communications strategies and plans
- Appreciate the impact of change on organisations, how to build momentum for change and sustain it
- Understand the importance of defined change roles, and how to build and support an effective change team

Practitioner

The Practitioner course prepares participants to undertake and pass the Change Management Practitioner Examination. The Practitioner level qualification aims to measure whether the candidate has sufficient knowledge and understanding of the Change Management guidance to apply and tailor it to a given scenario situation.

The course also includes review, consolidation of concepts and exam questions for the Practitioner level certification. **Please note that the Practitioner course is an [examination preparation course](#) and focuses on the application of Change Management to prepare candidates for the Practitioner examination.**

Course Delivery

Trainers of this course will use a practical delivery approach to provide participants with a 'hands-on', multi-faceted and challenging learning experience. Understanding and recall techniques will be used to provide participants with a solid Change Management comprehension.

Courses are facilitated by our expert team and can be conducted onsite, at our premises or virtually. All courses can be customised to suit your requirements.

Weekend courses: These are conducted over two full weekends.

Virtual Training: Our virtual training is streamed live (not pre-recorded) with an accredited trainer in real-time – otherwise referred to as Virtual Instructor Led Training (VILT). Our trainers are based in real training rooms complete with audio visual equipment. We apply best practices incorporating a modular approach with frequent activities, visual engagement, appropriate pace and relevant dynamic learning to add value.

Materials: A comprehensive participant workbook is provided for each course along with the textbook *The Effective Change Manager's Handbook*, which is issued during the Foundation course.
