## Overview

PRINCE2® (**P**rojects **I**n **C**ontrolled **E**nvironments) is a globally recognised project management methodology based on experience drawn from thousands of projects – and from the contributions of project sponsors, project managers, project teams, academics, trainers and consultants. Designed to be flexible and generic, PRINCE2 can be applied to projects of any type or scale.

Our PRINCE2 Executive overview provides guidance aimed at helping senior managers to direct project work efficiently, consistently and effectively.

## Course Objective

Aimed at senior managers and/or managers taking on senior project roles in a PRINCE2 environment, this course covers the questions frequently asked by those who sponsor or direct projects such as:

- What is expected of me?
- What should I expect of the Project Manager?
- How do I delegate authority to the Project Manager but keep control?
- What decisions am I expected to make?
- What information is available to help me make decisions?
- How do we tailor the use of PRINCE2 for projects of differing scale?
- What does an effective Project Board look like?

## Course Benefits

Our Executive Overview establishes a common understanding of terminology, roles and expectations for senior management involved in PRINCE2 projects.

The course may be conducted onsite or at our premises with certified and experienced trainers providing group and/or individual instruction.
