Who should attend?

- Anyone involved in a DSDM Agile project, including:
 - = Business representatives
 - = Delivery team members
 - = Technical specialists
- Anyone interested in learning more about DSDM.

Prerequisites

There are no prerequisites for this course.

Overview

The DSDM[®] (Dynamic System Development Method) Agile Project Framework, from Agile Business Consortium, provides organisations with a framework to deliver projects based on project management standards, rigour and visibility, whilst at the same time enabling the fast pace of change and empowerment that is integral to Agile.

All those involved in a DSDM Agile project, from the delivery team through to the highest-level business stakeholders, need to fully understand the role they need to play in achieving the optimal project outcome.

Course Objectives

This course will provide you with an overview of how DSDM Agile projects are delivered and the role that each person plays. Participation in this course will enable you to:

- Appreciate how value is delivered in an Agile project
- Use Agile principles and values to achieve business valued outcomes
- Contribute effectively to DSDM Agile projects
- Participate in common Agile practices such as prioritisation and estimation

Course Summary

Agile approach and philosophy: The Agile mindset, values and principles. How solutions are delivered using an Agile approach.

The DSDM Agile Project Framework: Overview of the DSDM philosophy, process model and products. Exploration of common DSDM roles.

DSDM practices, planning and control: Participation in a series of timeboxes to deliver valued outcomes for stakeholders. Defining requirements through user stories. Working with the prioritised requirements list. Participation in prioritisation and estimation sessions. Overview of DSDM planning, tracking and control concepts.

Course Delivery

Trainers of this course will use a practical delivery approach to provide participants with a 'hands-on', multi-faceted and challenging learning experience.

Courses are facilitated by our expert team and can be conducted onsite or at our premises. All courses can be customised to suit your requirements.

Materials: A comprehensive participant handbook is provided.
