

Agile Project Management (AgilePM®)

Foundation to Practitioner

Overview

AgilePM provides the ability to deliver Agile projects in organisations requiring standards, rigour and visibility around Project Management, whilst at the same time enabling the fast pace of change and empowerment that is integral to Agile.

AgilePM addresses the needs of management, project managers, team leaders, business analysts and the PMO working in an Agile environment, based on the DSDM® (Dynamic System Development Method) Agile Project Framework.

The Foundation course lays a solid foundation for managing projects using the DSDM Agile Project Framework and prepares candidates for the AgilePM Foundation certification.

The Practitioner course builds on the AgilePM Foundation course, providing additional depth of understanding, and prepares candidates for the AgilePM Practitioner certification exam.

Key Topics

The courses explore the following content with the Foundation level focusing on the theory, whilst Practitioner considers the application of the method:

Agile approach and philosophy

The Agile mindset. Being Agile vs Doing Agile. Delivering solutions using an Agile approach. Which Agile approach should you use.

The DSDM Agile Project Framework

The DSDM approach, principles and processes, and how they are applied throughout the project. Application and tailoring of relevant AgilePM aspects in context to enhance project success.

Working with DSDM Roles and products

Roles and responsibilities. Working effectively as an Agile team. Collaborating and communicating for success. The project manager's role across the DSDM lifecycle.

Managing Agile projects using DSDM

DSDM planning concepts including outcome-based planning and iterative development. Defining requirements through user stories, prioritisation and estimation. Tracking and control concepts and techniques e.g. management by exception, timeboxing and stand-ups. Managing quality and risk.

AgilePM Foundation

The Foundation course includes the AgilePM Foundation exam which consists of:

- » 50 multiple choice questions
- » 50% pass mark (25/50)
- » 40 minutes duration
- » Closed book

The Foundation exam addresses knowledge of the terminology of the method and a high-level understanding of the concepts.

Weekday courses

Exam taken on afternoon of day 3 of Foundation course.

Weekend courses

Exam taken morning of day 1 of Practitioner course.

Virtual training

Online proctored exam taken **after** the course. On completion of the Foundation virtual training, you will receive an invitation to book your Foundation exam. You have 6 months to sit the exam online. Please check availability when making your booking.

AgilePM Practitioner

Objectives

The Practitioner course prepares participants to undertake and pass the AgilePM Practitioner Examination. The course follows Section 2 of the AgilePM Handbook V2 –“Digging Deeper”, and includes a review, consolidation of concepts and exam questions for the Practitioner level certification.

Please note that the Practitioner course is an examination preparation course and focuses on the application of AgilePM to prepare candidates for the Practitioner examination.

Participants joining an AgilePM Practitioner course will be issued with pre-course work to ensure adequate preparation for the Practitioner exam.

Please be aware that pre-course work must be completed prior to the course.

Failure to complete pre-course work may mean that you are not ready to fully participate in the course and may limit your ability to gain the outcomes you are hoping to achieve.

Expected pre-course Practitioner preparation time: minimum 4 hours.

The AgilePM Practitioner qualification is valid for 5 years. Practitioners should re-register within 3-5 years of their original certification to demonstrate their commitment to professional development.

Course Delivery

Trainers of this course will use a practical delivery approach to provide participants with a 'hands-on', multi-faceted and challenging learning experience. Understanding and recall techniques will be used to provide participants with a solid understanding of AgilePM.

Courses are facilitated by our expert team and can be conducted onsite, at our premises or virtually. All courses can be customised to suit your requirements.

Weekend courses: These are conducted over one full weekend and one following Saturday.

Virtual training: Our virtual training is streamed live (not pre-recorded) with an accredited trainer in real-time - otherwise referred to as Virtual Instructor Led Training (VILT). Our trainers are based in real training rooms complete with audio visual equipment. We apply best practices incorporating a modular approach with frequent activities, visual engagement, appropriate pace and relevant dynamic learning to add value.

Materials: A comprehensive participant workbook is provided for the Foundation course.

A participant workbook and the AgilePM Handbook (published by the Agile Business Consortium) are provided to Practitioner participants.

APMG International administers the AgilePM examination scheme.

Customer story

Listen to Dominic Cain speak about how he went from being a young Chef to a Programme Director.

“

It is such an incredible feeling to have completed the AgilePM Foundation and Practitioner certifications! A special thank you to Kerry McLennan from PM-Partners group for the amazing training facilitation (in the virtual setting!) to keep it engaging, conversational and easily digestible; and all my course mates for the dynamic group interactions to make this journey extra valuable. I have truly enjoyed the learning experience and content, look forward to putting it into practice!
