

Project Management Professional (PMP)[®] Exam preparation

Overview

The Project Management Professional (PMP)[®] is the world's leading project management certification. If you are taking this course, you probably have some professional exposure to the duties of a project manager, or you may be considering embarking on a career in professional project management. Your ability as a project manager to demonstrate best practices in project management – both on the job and through professional certification – is becoming the standard to compete in today's fast-paced and highly technical workplace.

The PMP[®] certification, offered by the Project Management Institute (PMI)[®], validates that you are skilled in managing projects across three key domains:

- **People:** emphasising the soft skills you need to effectively lead a project team in today's changing environment.
- **Process:** reinforcing the technical aspects of successfully managing projects.
- **Business Environment:** highlighting the connection between projects and organisational strategy.

This latest PMP[®] certification also has the benefit of validating your skills in all three project approaches: Predictive (Waterfall), Agile and Hybrid.

Our PMP[®] Exam Preparation will guide you through the process and study required to obtain this globally recognised certification.

Key topics

Module 1 – Creating a high-performing team

Learn to define team ground rules, build a shared understanding, engage and support virtual teams and more.

Module 2 – Starting the project

Learn to determine appropriate project methods and practices, manage and plan various project elements (scope / budget / resources / schedules, etc.), establish project governance and more.

Module 3 – Doing the work

Learn to engage stakeholders, manage project risks and issues, manage project changes and more.

Module 4 – Keeping the team on track

Learn to collaborate with stakeholders, lead a team, manage conflict and more.

Module 5 – Keeping the business in mind

Learn to manage compliance requirements, deliver project value, evaluate business and environment changes, support organisational change, improve processes and more.

The exam is provided by PMI. Exam fees are paid directly to PMI when you apply for the PMP® certification and so are not included in the cost of the course.

Objectives

Duration: 5 days-weekdays

This course aims to prepare project managers and project practitioners for the task of passing the PMP® certification exam. Successful completion of this course will enable participants to understand:

- The project management principles and philosophy, as defined in the PMBOK® Guide, including project management domains, tasks, knowledge, and skills.
- How to apply global best practices in predictive, agile, and hybrid project management methodologies.
- How the processes detailed in the PMBOK® Guide can be used and tailored to address typical project management scenarios and to improve project management practices.
- The management skills required to ensure success in leading project teams, managing stakeholders and communicating within entire organisations.
- The requirements of the PMP® certification application process.
- How to fully prepare for the PMP® exam process.

Exam & Certification

The PMP® certification demonstrates to employers, clients, and colleagues that you possess project management knowledge, experience and skills to bring projects to successful completion.

To earn your PMP® certification you need to meet the experience and education requirements and pass the PMP® examination.

This course provides you with the 35 hours of specific project management training required to be eligible to apply for the PMP® certification.

The PMP® qualification is valid for 3 years. PMP® certification holders must earn 60 Professional Development Units (PDUs) within a 3 year cycle to actively maintain their certification.

PMP® examination

The exam is a 3hr 50 mins computer-based 180 question, multiple-choice exam.

Participants will be able to assess their ability to successfully pass the exam, through regular testing of knowledge throughout the program.
