

Scrum Master Certified (SMC™)

Overview

Scrum, created by Schwaber and Sutherland (c. 1995), is a popular Agile framework for developing and sustaining complex products. It offers a collection of roles, events, artefacts and rules, providing a way to assess the efficiency of your practices so that you can improve.

Scrum was formulated as a faster, more flexible way to deliver the greatest value in the least amount of time.

The Scrum Master Certified course is a collaborative learning experience, including roundtables, group discussions, team activities and role-plays.

The course also prepares candidates for the Scrum Master Certified (SMC) certification exam.

Key Topics

- » An Introduction to Agile and Scrum
- » Scrum Principles and Aspects in detail
- » Scrum Roles
- » The Scrum Lifecycle
- » Scaling Scrum
- » Conducting a Scrum project

Objectives

Duration

2 days

This course will enable participants to:

- » Be comfortable in taking on the role of Scrum Master and understand how the role relates to other Scrum roles
- » Apply the Scrum framework's philosophy and principles when delivering work
- » Ensure Scrum aspects, such as business justification and quality, are addressed throughout a project
- » Use a range of facilitation techniques to successfully manage meetings, address common issues and resolve impediments.
- » Understand the Scrum processes in detail so they can, in the role of Scrum Master, ensure processes are being correctly followed by the Scrum Team
- » Understand how Scrum is scaled in large projects, programs or portfolios
- » Prepare for the Scrum Master Certified (SMC) certification exam.

Exam and Certification

This course prepares candidates to sit the Scrum Master Certified (SMC™) certification exam. Participants may, at the end of this program, register to undertake the proctored online examination which consists of:

- » 100 multiple choice questions
- » 2 hours duration
- » One mark per correct answer

Course Delivery

Trainers of this course will use a practical delivery approach to provide participants with a 'hands-on', multi-faceted and challenging learning experience. Understanding and recall techniques will be used to provide participants with a solid comprehension of Scrum.

Courses are facilitated by our experienced and qualified SCRUMstudy Certified Trainers (SCT) and can be held on-site, at our premises or virtually. All courses can be customised to suit your requirements.

Virtual training: Our virtual training is streamed live (not prerecorded) with an accredited trainer in real-time - otherwise referred to as Virtual Instructor Led Training (VILT). Our trainers are based in real training rooms complete with audio visual equipment. We apply best practices incorporating a modular approach with frequent activities, visual engagement, appropriate pace and relevant dynamic learning to add value.

Materials: A comprehensive participant handbook is provided.

Exams are administered by ScrumStudy and the cost of the exam is included in the course fee.

Who is this course for?

- » Those who work in a Scrum (or any other Agile) environment

Why learn with PM-Partners?

Because we turn your career goals into reality.

Poor project skills are consistently quoted as a key reason for project failure. To be successful in project delivery, it's critical to invest in yourself and the capabilities of your team. This means setting clear goals and making a commitment to continuous improvement.

Certification and training is a vital part of this journey. But you need to know which foot to put forward, and when, to ensure you're heading in the right direction. That's where our expert guidance and support comes in.

Tell us where you want to go

At PM-Partners we start every conversation with the question, 'Where are you trying to go?' We then apply our expertise to show you exactly 'how' to get there.

We believe that having the relevant skills and methodologies is critical to delivery success, and ultimately career success. Depending on your aims, our team of professional development consultants will work closely with you to create a development pathway, or team training program, that aligns with your goals.

Helping to develop professional capabilities for 25 years

Our accredited programs provide certification and development across a range of globally recognised project management and delivery streams.

Each year, our expert facilitators train and certify more than 12,000 people throughout Australia, New Zealand and South-East Asia to best practice standards. All highly qualified practitioners in their field, they draw from real-life scenarios and their own experience to add real value for individuals, teams and organisations.
