

Agile Coaching

ICAgile Certified Professional in Agile Coaching (ICP-ACC)

Overview

The goal of agile coaching is to help individuals, teams, and organisations establish and improve agile practices and frameworks, while embedding core agile values and mindsets.

Agile coaches enable the optimisation of agile ways of working and the scaling of agile practices to ensure effective outcomes at a team and organisation level.

The role of an agile coach is varied. The coach is a guide, a catalyst, a champion for change, a servant leader, and a resolver of conflicts and issues. Effective coaches have a wealth of practical experience to draw on as they teach, mentor, coach, or facilitate agile teams to achieve exceptional results.

On successful completion of this course, participants will be awarded the ICAgile Certified Professional – Agile Certified Coaching (ICP-ACC) certification.
