

# SAFe® for Architects

Architecting for continuous value flow with SAFe®

## Overview

---

Attendees can improve collaboration and alignment in a SAFe® Lean-Agile enterprise when they become a SAFe 6.0 Architect. The SAFe® for Architects course prepares system, solution, and enterprise architects to engage across the organisation as effective leaders and change agents who collaboratively deliver architectural solutions.

During this three-day course, attendees will explore the roles, responsibilities, and mindset of agile architects, and appreciate how to align

architecture with business value and drive continuous flow to large systems-of-systems while supporting SAFe program execution.

This course is for senior technical contributors who need to understand the role of system, solution, and enterprise architects in Lean-Agile enterprises. The course is also appropriate for individuals desiring a deeper view into how architecture enables continuous value flow and how architects engage in, and contribute to, a Lean-Agile enterprise.

## Key topics

---

- » Exemplifying Lean-Agile architecture
- » Architecting for DevOps and Release on Demand
- » Aligning architecture with business value
- » Developing Solution Vision, Solution Intent, and Roadmaps
- » Preparing architecture for Program Increment (PI) Planning
- » Coordinating architecture throughout PI Planning
- » Supporting Continuous Delivery during PI execution
- » Supporting new Strategic Themes and Value Streams
- » Leading as an architect during a Lean-Agile transformation

# Objectives

**Duration: Weekday / Virtual - 3 days**

**Upon completion of this course, you will be able to:**

- » Explain SAFe agile principles
- » Apply SAFe principles to managing trade-offs between functionality, cost, risk, and sustainability
- » Ensure designs can be implemented in small batches with continuous integration/continuous delivery deployment model
- » Communicate solution context and intent to agile teams and trains
- » Establish intentional architecture guidelines and enable flexibility to allow emergent technology
- » Prepare architectural runway to enable delivery success
- » Steer architecture decisions, support risk and issue resolution, participate in management review and problem solving during Program Increment execution
- » Define, implement, and monitor quality practices, including CI/CD and DevOps
- » Ensure that technology decisions made within an ART work end-to-end across components in a Solution
- » Ensure that Solution complies with Portfolio technology strategy
- » Enable Lean-Agile transformations and coach Lean-Agile practitioners

## Exam and Certification

Attending this course prepares you to take the SAFe for Architects (6.0) exam and **become a Certified SAFe Architect**. The exam is a multiple choice, closed-book, web-based examination (120 mins, 60 questions, 75% passing score) **taken after course completion**.

**Attendees who pass the exam will receive:**

- » Certified SAFe Architect PDF certificate
- » Certified SAFe Architect digital badge to promote your accomplishment online
- » One-year membership to the SAFe Community Platform, with access to the ARCH Community of Practice
- » Access to Meetup groups and events that connect you with other SAFe certified professionals
- » A variety of learning resources to support you during your SAFe journey

First exam attempt is included as part of the course registration fee if the exam is taken within 30 days of course completion. **Attendees must attend both days of the course to be eligible for the exam.**

## Course delivery

Courses are facilitated by our qualified and experienced trainers who have been through a rigorous process in demonstrating their experience and practical working knowledge. Courses can be conducted onsite, at our premises or virtually. All courses can be customised to suit your requirements.

**Virtual training:** You can learn more about our virtual delivery [here](#).

PM-Partners is a Scaled Agile Gold Partner

## Who is this course for?

The following individuals will benefit from this course:

- » Scrum master
- » Agile coach
- » Consultant
- » Architect, solution architect and system architect

**Participants should:**

- » Have attended at least one SAFe course
- » Have participated in at least one ART and one PI

### Professional Development Units (PDUs)

### CPDs

Participants holding any of the Project Management accreditations (CPPP/CPPM/CPPD) **are eligible to earn 20 CPDs** for this short course.

# Why learn with PM-Partners?

## Because we turn your career goals into reality.

Poor project skills are consistently quoted as a key reason for project failure. To be successful in project delivery, it's critical to invest in yourself and the capabilities of your team. This means setting clear goals and making a commitment to continuous improvement.

Certification and training is a vital part of this journey. But you need to know which foot to put forward, and when, to ensure you're heading in the right direction. That's where our expert guidance and support comes in.

## Tell us where you want to go

At PM-Partners we start every conversation with the question, 'Where are you trying to go?' We then apply our expertise to show you exactly 'how' to get there.

We believe that having the relevant skills and methodologies is critical to delivery success, and ultimately career success. Depending on your aims, our team of professional development consultants will work closely with you to create a development pathway, or team training program, that aligns with your goals.

## Helping to develop professional capabilities for 25 years

Our accredited programs provide certification and development across a range of globally recognised project management and delivery streams.

Each year, our expert facilitators train and certify more than 12,000 people throughout Australia, New Zealand and South-East Asia to best practice standards. All highly qualified practitioners in their field, they draw from real-life scenarios and their own experience to add real value for individuals, teams and organisations.

## Our promise to you

PM-Partners is committed to providing industry leading education that is relevant, up-to-date and designed to meet your specific needs.

We offer qualifications in multiple disciplines, including key products in PeopleCert's best practice portfolio, such as ITIL®, PRINCE2® Project Management, PRINCE2® Agile Project Management, PRINCE2® Programme Management, Prince2® Portfolio Management, and P3O®; APMG's AgilePM®, AgileBA®, AgilePgM™, Lean Six Sigma, Managing Benefits and Change Management; as well as the Scaled Agile Framework® (SAFe®); and Business Analysis programs from The Australian Chapter of the International Institute of Business Analysis™ (IIBA®), to name a few.

To find out more about how we can help you or your organisation uplift their capability, contact the experts on 1300 70 13 14.
