AI-Native
Change Agent

Working and thriving in the age of AI

pm-partners

Overview

Most AI initiatives never make it past the pilot phase. Hype burns hot, priorities shift, and promising projects stall out before delivering business value.

AI-Native Change Agent is built to fix that. In three hands-on days, you'll learn how to guide real AI initiatives from spark to scale translating technical potential into business results that stick.

This isn't theory. You'll lead a live initiative through practical milestones, learning how to align stakeholders, navigate blockers, and deliver measurable outcomes that move beyond the proof of concept (POC) graveyard.

By the end of this course, you will have:

- A repeatable framework for leading AI initiatives across functions
- Tools to engage both business and technical leaders in plain language
- A 30-60-90-120 day roadmap for turning opportunity into production impac
