Certified Agile Scaling Practitioner® (CASP)

pm-partners

Overview

Our live-online two day Certified Agile Scaling Practitioner® course can help you the get the most from your agile scaling efforts.

This dynamic course is designed to equip you with the skills to implement agile practices at scale. Delivered through interactive and immersive learning methods, the course incorporates gamification to ensure high engagement and a fun learning environment. It features real-world insights from the instructor's personal experiences and industry case studies.

Participants will learn how to move from one-size-fits-all scaling frameworks to a pattern-and-practices-driven approach. The course uses a mix of media and delivery approaches and covers 12 proven patterns that support agile at scale, with deep dives, research and analysis. Participants benefit from a safe space to discuss and explore scaling concepts, making this course ideal for professionals aiming to enhance their agile expertise in complex organisational settings.

Objectives

- Understand the fundamentals of scaling in Agile – Define scaling, its relationship to business agility, and the necessity of scaling within organisations.

- Identify and overcome scaling challenges – Recognise key challenges, risks, and complexities involved in scaling Agile practices.

- Leverage patterns for effective scaling – Understand and apply Agile patterns to address scaling challenges while avoiding common anti-patterns.

- Manage logistical and structural scaling issues – Identify and address logistical constraints, organisational complexities, and framework limitations.

- Ensure sustainable and adaptive scaling – Implement strategies for scalable, evolving Agile practices that align with organisational goals.

- Integrate organisational change management (OCM) into scaling – Apply OCM principles to support transformation, iterative improvement, and effective leadership in scaling efforts.

Key Topics

Unlike prescriptive scaling frameworks, the CASP course equips you with the skills and knowledge to help you identify and explore principle-informed patterns that apply to your organisation's unique and evolving context.

The topics covered in this course include the following:

- Develop the skills and mindset needed to consider an approach to scaling

- Align your organisational principles with appropriate scaling patterns

- Understand the need to evolve your scaling approach

- Recognise the role of patterns in frameworks (including LeSS, SAFe®, Spotify, DAD, etc.), improving the effectiveness of frameworks

- Explore the use of 'scaffolding' to aid your organisation in moving in the desired direction

SAFe® is a registered trade mark of Scaled Agile, Inc.

Why learn with PM-Partners?

Because we turn your career goals into reality.
Poor project skills are consistently quoted as a key reason for project failure. To be successful in project delivery, it's critical to invest in yourself and the capabilities of your team. This means setting clear goals and making a commitment to continuous improvement.

Certification and training is a vital part of this journey. But you need to know which foot to put forward, and when, to ensure you're heading in the right direction. That's where our expert guidance and support comes in.

Tell us where you want to go
At PM-Partners we start every conversation with the question, 'Where are you trying to go?' We then apply our expertise to show you exactly 'how' to get there.

We believe that having the relevant skills and methodologies is critical to delivery success, and ultimately career success. Depending on your aims, our team of professional development consultants will work closely with you to create a development pathway, or team training program, that aligns with your goals.

Helping to develop professional capabilities for 25 years
Our accredited programs provide certification and development across a range of globally recognised project management and delivery streams.

Each year, our expert facilitators train and certify more than 12,000 people throughout Australia, New Zealand and South-East Asia to best practice standards. All highly qualified practitioners in their field, they draw from real-life scenarios and their own experience to add real value for individuals, teams and organisations.

⭐⭐⭐⭐⭐

This course provides you with the appropriate guidelines and tools to excel in the area of programme management. As a global standard I would highly recommend this course to anyone working in or aspiring to work in programme management.

- Claire Powell

⭐⭐⭐⭐⭐

Richard kept it interesting and was very knowledgeable and didn't rush ahead if someone had a question, he was attentive to their question and wouldn't move on without it being resolved, I really liked this and found ir an uncommon practice in previous training courses (not with PMP).

- Ian Davie

⭐⭐⭐⭐⭐

Richard was attentive to the energy of the participants and gave students time needed to address queries. Thank you for the positive experience.
