Generative AI for Project Managers and Project Teams

Course duration: 1 day

The Generative AI for Project Managers and Project Teams course offers a dynamic, hands-on learning experience designed to integrate AI tools into project management practices. Participants will actively engage in practical exercises, using prompts to navigate real-world project management scenarios and case studies. This approach ensures that learners not only grasp theoretical concepts but also apply them effectively to solve practical challenges.

Throughout the course, attendees will work directly with various AI tools to streamline project workflows, enhance decision-making, and refine their prompt engineering skills. By immersing themselves in interactive exercises, participants will gain valuable insights into managing AI-driven projects and achieving efficient results. This practical focus will help project managers and their teams become adept at leveraging AI to handle complex tasks, allowing them to focus on strategic aspects and drive project success.

Objectives

This course will enable participants to:

» Use AI to complete selected project management tasks and generate fit for purpose information for input to project management artefacts

» Explain key AI concepts, including commercial considerations when using AI

» Use standard techniques for writing effective prompts

» Identify how AI can help complete common project tasks

Key topics

» History of AI

» Benefits and limitations of AI technologies

» Considerations when using AI (ethics, intellectual property, etc.)

» Common AI tools

» Prompt engineering frameworks

» Optimising outputs through iterative refinement and prompt engineering logs

» Practical application of AI for project managers

Why learn with PM-Partners?

Because we turn your career goals into reality.
Poor project skills are consistently quoted as a key reason for project failure. To be successful in project delivery, it's critical to invest in yourself and the capabilities of your team. This means setting clear goals and making a commitment to continuous improvement.

Certification and training is a vital part of this journey. But you need to know which foot to put forward, and when, to ensure you're heading in the right direction. That's where our expert guidance and support comes in.

Tell us where you want to go
At PM-Partners we start every conversation with the question, 'Where are you trying to go?' We then apply our expertise to show you exactly 'how' to get there.

We believe that having the relevant skills and methodologies is critical to delivery success, and ultimately career success. Depending on your aims, our team of professional development consultants will work closely with you to create a development pathway, or team training program, that aligns with your goals.

Helping to develop professional capabilities for 25 years
Our accredited programs provide certification and development across a range of globally recognised project management and delivery streams.

Each year, our expert facilitators train and certify more than 12,000 people throughout Australia, New Zealand and South-East Asia to best practice standards. All highly qualified practitioners in their field, they draw from real-life scenarios and their own experience to add real value for individuals, teams and organisations.

Our promise to you
PM-Partners is committed to providing industry leading education that is relevant, up-to-date and designed to meet your specific needs.

We offer qualifications in multiple disciplines, including key products in PeopleCert's best practice portfolio, such as ITIL®, PRINCE2® Project Management, PRINCE2® Agile Project Management, PRINCE2® Programme Management, Prince2® Portfolio Management, and P3O®; APMG's AgilePM®, AgileBA®, AgilePgM™, Lean Six Sigma, Managing Benefits and Change Management; as well as the Scaled Agile Framework® (SAFe®); and Business Analysis programs from The Australian Chapter of the International Institute of Business Analysis™ (IIBA®), to name a few.
